

Clean Energy Policies and Coordination

Ann Rendahl
Commissioner
Utilities and Transportation Commission

Washington State Transition to 100% clean electricity

Energy Independence Act
(2006)

Clean Energy Transformation
Act (2019)

includes legacy hydro and nuclear

WA & BC Clean Grid Initiative

- Intergovernmental working group to develop a Clean Grid Action Plan for the region.
- **Regional Electricity and Clean Energy Policy Workstream:**
 - **Clean Energy Accounting**
 - Resource eligibility under clean energy and GHG requirements
 - Mechanisms for accounting, tracking and compliance
 - **Adequacy and Reliability**
 - Assess available transmission capacity and infrastructure necessary to support economic efficiency and affordability of trade in clean resources
- **Findings and recommendations and the next phase of the collaboration will be announced at the Cascadia Innovation Corridor conference in November.**
